

THE FUTURE OF WORK

As the pandemic continues to transform the way we work, different industries are being impacted. Exponential threats and opportunities can be found at the intersection of global challenges, exponential technologies, business models, and changes in the environment.

All these elements represent external disruptions that may be relevant to individuals, organizations, and industries over both the long - and short- terms.

A Challenge Open to all IE Alumni in Saudi Arabia

3 Teams

Each guided by a coach, each tackling one problem:

Team 1: Work & Wellbeing

Team 2: Future of Workplaces

Team 3: Future of Corporate Learning
